

# HAVE YOU GOT AN A-LEVEL IN MATHS?

Or an O level, or GCSE Grade C or above?

If you have, and would be interested in helping young people with their GCSE Maths, volcom would like to hear from you.

We are looking for volunteers to work one-to-one with young people who are falling behind with their Maths, and need a little extra support.

We are also interested in hearing from you if you are considering a return to teaching/tutoring, or starting work as a Teaching Assistant.

If you are ready to make a difference, please call Volcom on 382534, or email [office@volcom.org.uk](mailto:office@volcom.org.uk), leaving your name, address and telephone number, and we'll get straight back to you.
